Remote Reason

SUMMER INTERNSHIP 2025

REMOTE & PART-TIME INTERNSHIP

YOU

Student in Computer Science

You really love coding

Like this is the most important stuff going on in your life

Want a remote & part-time job after the paid internship

YOU ALREADY KNOW

- HTML/CSS & Tailwind
- One programing language

WHAT YOU WILL LEARN WITH US

- Elixir, Phoenix Framework & the Elixir ecosystem
- Functional programing & distributed systems on the OTP
- SQL & Postgres
- AWS
- AI engineering

HOW WE WORK

STEP 1 **PAID INTERNSHIP**

Starts in July 2025

Training & learn the basics & peer programming on real code already running in production

Continues in August

Build you first real features & launch in production

STEP 2 **REMOTE & PART-TIME JOB**

- Starts in September or October 2025 — **you decide what works for you**
- You start as a junior developer in a **real project**
- Get plenty of **help & challenges** along the way
- Very small team, you have **direct & personal impact** every week. You will work with the company founder on a daily basis
